An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Report. In making those risk assessments, the auditor considers internal controls relevant to the Company's preparation of the Financial Report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independence

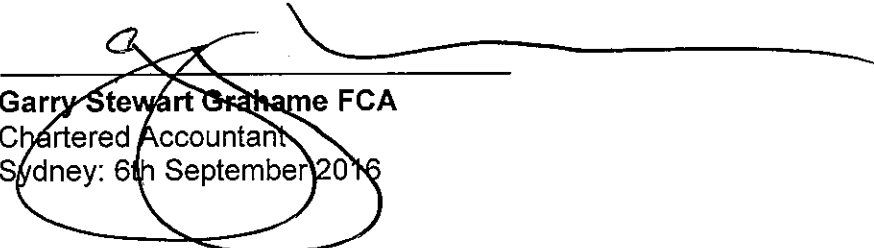

In conducting my audit, I have complied with the independence requirements of the Corporations Act 2001. I confirm that the independence declaration required by the Corporations Act 2001, which has been given to the Directors of Australian Institute of Credit Management, would be in the same terms if given to the directors as at the time of this auditor's report.
